

Nora Schmidt Katharina Swoboda Kosta Tonev

**Black Quarry
Form(les)s Dwellers of Life**

5–31 August 2017

The exhibition is concerned with the production of space or elliptical sense between the three positions and the works on display by **Nora Schmidt, Katharina Swoboda, and Kosta Tonev**, and to what extent the aesthetic use of research or research creation (lightening of sense) refers to what Jean-Luc Nancy calls the “knowledge of a condition of possibility that gives nothing to know.” It is rather about “the syndrome known as life,” or “the sense of being which calls for more form.”

Curated by Dimitrina Sevova & Alan Roth.
